TOOL REQUIRED BUT NOT INCLUDED

HAMMOCK CHAIR STAND - ASSEMBLED

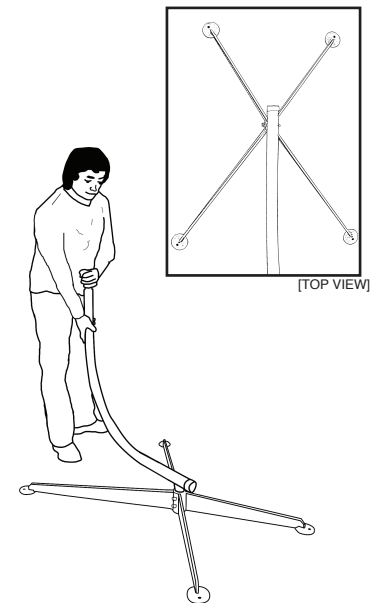

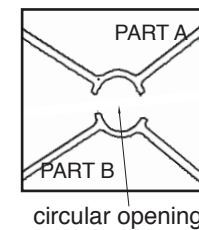

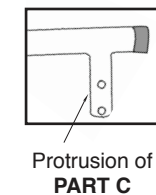

Assembling Your Hammock Chair Stand:

TWO PEOPLE ARE REQUIRED TO SET UP THE HAMMOCK CHAIR STAND.

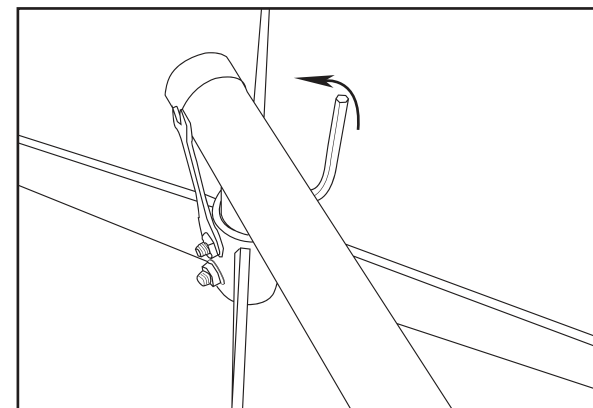

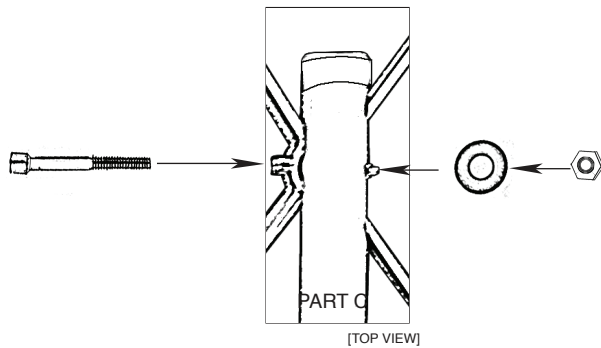

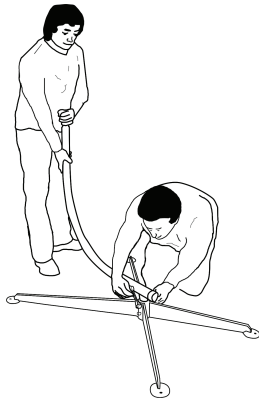

(1) Align **PART A - BASE HALF** with **PART B - BASE HALF** placing them 1/2" apart.

WARNING: MAKE SURE THE ENTIRE BASE IS SECURE TO THE GROUND BEFORE PROCEEDING.

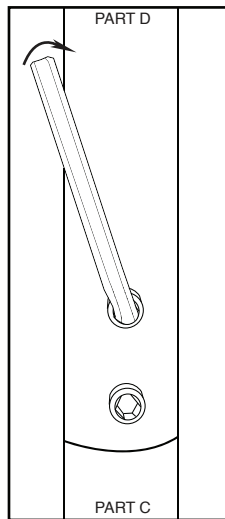

(2) Have one person hold **PART C**, while placing it via its protrusion into the circular opening between the base halves (**PART A & PART B**).

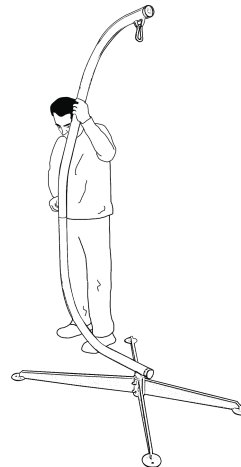

HAMMOCK CHAIR STAND ASSEMBLY

(3) While holding **PART C** in place, the other person will take the **(2) 3 1/8" Screws** and thread it through each of the holes on one side of the base. Place a **Washer** and then a nut on each of the screws. Hold the nut in place using the **Open-End Wrench** while using the **Allen Wrench** to tighten the screws.

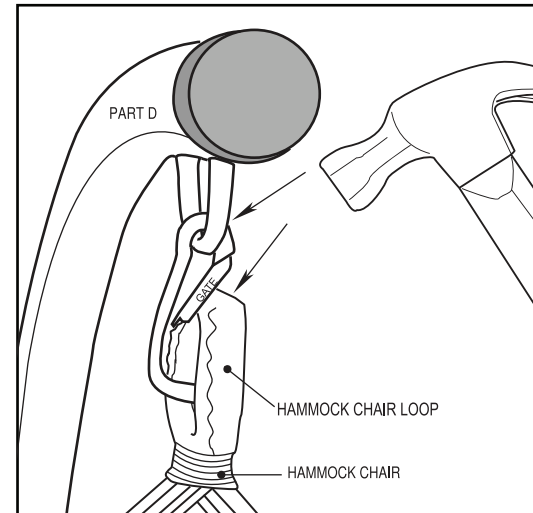

(4) Use the **Allen Wrench** to tighten the **(2) 1 1/8" Screws** to screw in **PART D** into **PART C**.

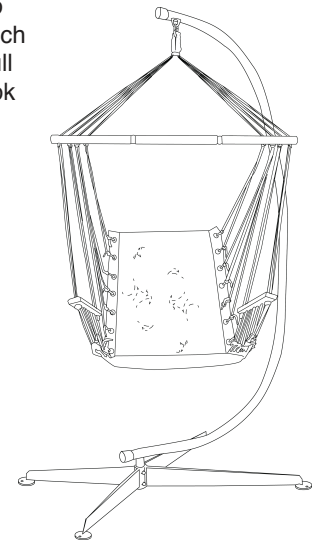

HAMMOCK CHAIR INSTALLATION (Hammock Chair Sold Separately)

BY SNOW JOE

(5a) Take the **Carabiner Hook** and latch it onto the loop that is on **PART D**. Rotate the hook such that the narrow end meets with the loop and pull downward. Use a hammer to lightly tap the hook until it is securely on the loop.

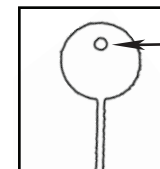

(5b) When installing the Hammock Chair, latch the Hammock Chair loop into the opening of the Carabiner Hook. Use a hammer to gently tap the top of the Hammock Chair loop until it is securely in place and the Carabiner Hook gate snaps closed.

FULLY ASSEMBLED
HAMMOCK CHAIR & HAMMOCK CHAIR STAND

WARNING: TIPPING HAZARD
MAKE SURE THE ENTIRE BASE
IS SECURED TO THE GROUND
BEFORE USE.

For best results, secure base using nails (or metal stakes) with a head that is greater than 1/2" and body that is less than 1/2"; inserted through the holes at the ends of the base.

Made in China
Max Weight Capacity: 300 LBS (136 KGS)
